1 //Coding Challenge: As a stretch, you could convert these examples
2 // to use prompt() and alert() as was described in the User Input
3 //Section of Week 2: Weekly Videos and Curriculum
4 //(e.g. request the Student name, and the grades).
5
6 //Let's look at a Grade Book Example.
7 //Imagine that I have a College Programming Course that has 5 coding
8 // assignments. For our example, I will set the values of the grades.
9
10 console.log(test test test);
